

Poinciana Pentecostal Church of God
4912 Old Pleasant Hill Road
Poinciana, FL 34758

407-944-1151

Pastor Barrington Brown

In a time of uncertainty when we have witnessed severe economical devastation and major unemployment across the board, one man with a vision stepped to the plate and said "what is impossible for man is possible with God". Throughout the time when Poinciana, Florida would witness absolutely no construction about its neighborhoods, this man opened the way for construction workers to feed their families again. In 2009 Pastor Brown on behalf of Poinciana Pentecostal Church of God of Poinciana, Florida contracted Frasier Contracting Inc. to rebuild its Church. Frasier Contracting Inc. has done the almost impossible by demolishing a little over half of the church on Old Pleasant Hill Road in order to construct a New Building surrounding and unifying the old. Our church doubled in size. The Contractor said we would be in our building by Christmas 2009. And On Christmas Day, we were in our building. Every single day they were there overseeing some aspect of the construction phase. They were efficient, thorough, detailed, and honest, and there was always an immediate contact person who made sure every element of our concerns was addressed immediately. We were never alone in the process. This is the true epitome of a contractor, and I believe Frasier Contracting Inc. is the most excellent contractor anyone can choose for their project; whether easy or almost impossible like ours. If one should think of a complex project, rest assured that is what their specialty is. Complexity! They can do it. They can take an impossible project and create a structural design of greatness. Thank you, Mr. Riley, Thank you Beth, and Thank you Leo. You have done great by us, and we are so proud to have a beautiful place to worship for years to come built by Frasier Contracting, Inc., of Winter Haven, Florida.

Sincerely

Pastor Barrington B. Brown
